

## Workshop: Introduction to Peace and Conflict Studies

Dr. Marcus Hornung, Winter Term 2023/2024

Measure of the programme „Zukunft Ukraine“ financed by the German Academic Exchange Service (DAAD) with funds from the Federal Foreign Office

The world is once again increasingly shaken by geopolitical conflicts. Peace and conflict research plays a major role in the analysis of such conflicts. In contrast to media reporting, peace and conflict research offers concepts and methods for approaching conflicts objectively and from a macro perspective. The compact program provides a practice-oriented insight into the field of research, its methods and practical fields of application, especially in the area of international development cooperation. During an academic excursion to the Rhine-Main region, selected actors will be visited on site. [Registration is now possible via STUD.IP](#). The course is extracurricular open to all interested students. Any further information will be given in the Prep Session on Monday, 04/12/23 at 18:00.

- 04/12/23 18:00 Prep Session: Information, Orientation and Questions  
online
- 08/12/23 Introduction: Check-in, Expectations and Schedule  
online
